

# UNITED REPUBLIC OF TANZANIA

## MINING INDUSTRY

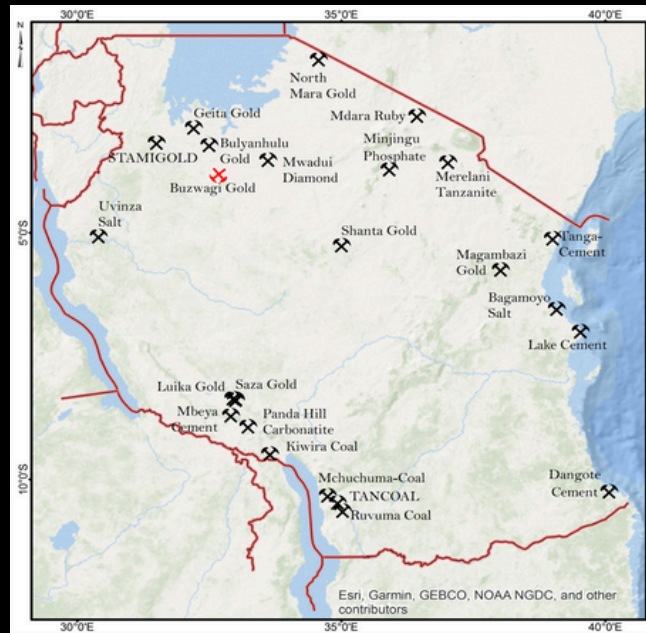

### Country Overview

**Area:** 945,087 sq km  
**Population:** 61.7 million (2022)  
**GDP per capita:** \$1,211.1 (2023)  
**Economic growth:** 5.2% (2024)  
**Global ranking:** 15th fastest growing economy (IMF 2024)

### Industry Overview

**Sector GDP contribution:** 9.1% (2024)  
**Target GDP contribution:** 10% (2025)

### Major Scale Operating Mines

### Investment Opportunities

**Exploration:** Untapped potential in critical minerals

**Technology:** High-resolution geophysical surveys, QA/QC, drilling

#### Downstream:

- Construction & manufacturing (ceramics, fertilizers, batteries)
- Mine waste & tailings processing
- Consulting (engineering etc.)
- Logistics & transportation
- Gemstone value addition
- Equipment assembly
- Smelting & refining
- Chemical supply
- Fabrication
- Recycling

+255 753 397 929

**Socials:** @BECounseled

**Email:** info@becounseled.com

**40%** Large Scale Mining  
**60%** Small Scale Mining

### Mineral Diversity

**Metallic:** copper, gold, iron, nickel, silver, titanium, zinc, zircon

**Critical:** chromium, cobalt, graphite, helium, lithium, manganese, nickel, PGM, REE, tin

**Industrial:** barite, bauxite, clays, fluorspar, gypsum, HMS, kaolin, limestone, niobium, phosphate, pozzolana, salt

**Gemstone:** Tanzanite, diamond, ruby, sapphire, alexandrite and more

**Energy:** coal & uranium

**16%** High resolution geophysical survey

**Ming Act 2010**  
Primary Legislation

**Ministry of Minerals, Tanzania**  
**Minerals Commission, State Mining Corporation (STAMICO)**

**Local content requirements**
